Features and Accessories

The IDV62471 Icon Direct Vent gas fireplaces provide the quintessential true masonry fireplace appearance, a trend homeowners desire, but at a fraction of the cost. In addition, the direct vent system provides higher efficiencies, preserves indoor air quality and the convenience of enjoying a roaring fire at the flip of a switch.

Add style to your Icon Direct Vent gas fireplace by choosing one of two unique optional fronts, available in black or bronze finishes.

- 40,000 - 59,000 Btu/Hour Input (NG)
- 18' control wire
- Manual gas shut-off valve
- Tempered glass
- Traditional or herringbone refractory

- Junction box
- Gas flex connector
- 8 ceramic fiber logs
- Glowing embers, lava rock, vermiculite

Firescreen Companions and Andirons

The optional Firescreen Fronts are available in black or bronze for added style. All fronts feature standard safety mesh and andirons.
